

# Out of Balance

Metal Church

When you have balance and sleep through the night  
Then you will feel everything is alright  
Follow the leader and lead you astray  
And when you hear me get out of my way

There is a reason that we're here tonight  
Injection of power to get in the fight  
Where we go when we go, all you will see  
Taking it back, no apology

When you're feeling low and you feel you're out of balance  
Out of balance  
When there's time to kill, you know you will be out of balance  
Out of balance  
Out of balance

Now they say nothing that you need to hear  
The more that you listen, insanity's clear  
Calling them out for their dark, evil ways  
Then you will know it's the end of all days

When you're feeling low and you feel you're out of balance  
Out of balance  
When there's time to kill, you know you will be out of balance  
Out of balance

When you're feeling low and you feel you're out of balance  
Out of balance  
When there's time to kill, you know you will be out of balance  
Out of balance  
Out of balance

When you're feeling low and you feel you're out of balance  
Out of balance  
When there's time to kill, you know you will be out of balance  
Out of balance

When you're feeling low and you feel you're out of balance  
Out of balance  
When there's time to kill, you know you will be out of balance  
Out of balance  
Out of balance  
Out of balance  
Out of balance  
Out of balance
