

## Midnight Rider

## Metal Inquisitor

In such a night, when every louder wind  
The world seems frozen or confined  
In such a night, when  
Passing clouds give place  
Or gently veil the mysterious face

Whole time, in darkness it will grow  
All night - without fear  
Itself, highborn from the blow  
No threat without a tear

Midnight rider  
Midnight rider  
Rider in the night  
Rider in the night

When darkness groves their  
Blackest shadows wear  
He is stealing peace  
And his shade we fear  
When a crueless cry  
Beneath the village walls  
His morbid brood  
Their desperate calls

Whole time, in darkness it will grow  
All night - without fear  
Itself, highborn from the blow  
No threat without a tear

Midnight rider  
Midnight rider  
Rider in the night  
Rider in the night

The moon glows cold  
But nearly perfect bright  
Shows the land like a test of daylight  
In such a night don't let me abroad remain,  
Till morning comes, and there is hope again

Whole time, in darkness it will grow  
All night - without fear  
Itself, highborn from the blow  
No threat without a tear
