

My Sacrifice

Metal Inquisitor

More again you're leading the score
coming through, nuclear core
reaching time of chain reaction
still the start of nuclear meltdown

Your sacrifice
coming down the first delirium
your sacrifice
destroying like nuclear fission

Burning down the second mark
drinking beerfast a shark
greed says pump up the speed
brain warns , don't i take heed

Day awake , it's like an air raid
whisper soft "where is the first aid"
look into mirror , what could you see
eyes of death in a poisoned sea
