

Hellrider

Metal Law

Once I close my eyes at night
I feel the darkness rise
Stepping into wonderland
I have no fears this time

He breaks into
My dreams at night
I hear the roaring noise
His bike with spikes and blades
He's whipping with his chain
And I know the time
Has come to ride

"Come here, get on, my friend
Do you see?
You have to face the dark

Put on your leather gear
We'll fight with chains and steel
Do not fear the monsters
In your mind"

Hellrider
Now coming to me
Hellrider
He drives my nightmares away

We're riding down
At lightning speed
Into my wildest dreams
I hold fast to his wheels
The engine close to me
'Cause I know no one
Can stop us now

Hellrider
Now riding with me
Hellrider
We'll slash the monsters away

Hellrider
Now coming to me
Hellrider
My final demon awaits

Hellrider
Now riding with me
Hellrider
I'll never wake up again
