

## In Metal We Trust

### Metal Law

We're standing together  
Here on stage  
It's time to play metal for you  
We stir up your blood  
You feel it inside  
The spirit of metal  
Breaks through

United forever, side by side  
You're like blood brothers to us  
Together, my friends  
We are strong as steel  
Come on, our union is real

Pounding like hammers  
Sharp like an axe  
We strike and then disappear  
Out to attack, the rumble you feel  
The sons of the thunder are here

Gather and fight  
Like troopers from hell  
Bound by our faith, we are one  
Facing the storm  
We never hold back  
Till our battle is won

Metal is the power  
Here we are again  
Warriors in leather  
Reborn in steel  
Metal is the law  
Screaming loud and raw  
Fighting until the end, my friend  
In metal we trust

Stand up if you are metalheads  
Defending the faith, my friend  
In metal we trust
