

Illusion of the mind  
Lying on the floor  
Prisoner engaging for the open door  
Hiding for the light  
Rotten to the core  
Catch the moment you have looking for

Taking every chance, through the geofence, trying even more  
Heartbeats, faster than before  
Chasing every step, right behind your back, you will hear me roar  
Woo, never let you go!

Winds will blow through the open sky  
And I will take command tonight  
You can run but you cannot hide  
Cause I will take control, alternative, delete!  
Delete!

Delusion of the soul  
To guide you and control  
Colonist of neural fragments dead and cold  
Never ending pain  
Slowly goes insane  
We will find a way to win the game

Closing every gate in this cryptic maze, trying even more  
Searching for the broken code  
Shuts the system down, it will take a while, lights will let you know  
Woo, ready set go

Winds will blow through the open sky  
And I will take command tonight  
You can run but you cannot hide  
Cause I will take control, alternative, delete!  
Alternative, delete!

Winds will blow through the open sky  
And I will take command tonight  
You can run but you cannot hide  
Cause I will take control, alternative, delete!

Winds will blow through the open sky  
And I will take command tonight  
You can run but you cannot hide  
Cause I will take control, alternative, delete!
