

# Cyanide

Metallica

1. Sleep and dream of this  
Death angel's kiss  
Brings final bliss  
Completely

R: Empty they say  
Death won't you let me stay  
Empty they say  
Death hear me call your name  
Uhh call your name

Suicide I've already died  
You're just the funeral I've been waiting for  
Cyanide living dead inside  
Break this empty shell forevermore

2. Wait, wait patiently  
Your death black wings  
Unfolding sleep  
Spreading on me

R: Empty they say...

3. Say is that rain or are they tears  
That stained your concrete face for years  
The crying, weeping, shedding strife  
Year after year, life after life

4. In narrow freshly broken ground  
A concrete angel laid right down  
Upon the grave which swallows fast  
It's peace at last, oh peace at last

R: Empty they say...  
Forevermore  
Forevermore  
It's just the funeral I've been waiting for
