## **Damage Case**

Hey babe don't act so scared All I want is some special care On the run from some institution All I want is some constellation

And I can tell by his face I'm a total disgrace Put me inside this place Move over for a damage case

Hey baby wait a minute, stop Don't run away, don't call a cop I Ain't lookin' to victimize you All I want to do is tantalize you

I can tell by your face I'm all over this place I can tell by your face Got no time for a damage case

No time baby!

Hey babe don't turn away I'm here tomorrow, gone today I don't know what you think your game is I don't care if you want your name is

And I can tell by this face You're all over the place I can tell by his face Move over for a damage case Get the fuck over man!

All right
