

# My World

Metallica

The motherfuckers got in my head  
Trying to make me someone else instead

It's my world now

Mama, why's it rainin' in my room  
Cheer up boy clouds will move on soon  
Heavy fog got me lost inside  
Gonna sit right back and enjoy this ride

It's my world  
You can't have it  
It's my world, it's my world  
It's my world

I'm out of my head, out of my head  
Get 'em out of my head, out of my head  
Get 'em out

Who's in charge of my head today  
Dancin' devils in angels way

It's my time now

Look out motherfuckers here I come  
Gonna make my head my home  
The sons of bitches tried to take my head  
Tried to make me someone else instead

It's my world  
You can't have it  
It's my world, it's my world  
It's my world

I'm out of my head, out of my head  
Get 'em out of my head, out of my head  
Get 'em out

Not only do I not know the answer  
I don't even know what the question is

God it feels like it only rains on me

Not only do I not know the answer  
I don't even know what the question is

I'm out of my head, out of my head  
Get 'em out of my head, out of my head  
Get 'em out

Enough's enough
