

# Shadows Follow

Metallica

Hanging by a thread as I play dead  
Hanging by a thread and my mind is code red  
Cut and run, try to hide, get away  
Shut my eyes, just to hide from the fate  
Cut and run, try to hide, get away  
Cover up, get shelter from the hate

Demonized, liquified, tranquilized  
Prophesied, just to hide from life  
Night and day, led astray, in decay  
Come what may, not to face that fight

Seething  
Breathing  
Nightmares grow  
On I run  
Still my shadows follow

Never can I stop 'cause they hunt me  
Never can I stop 'cause the beast is hungry  
Like a wolf on the hunt stalking prey  
Closing in, no, it won't let me be  
Like a wolf on the hunt stalks a prey  
Any cost, fulfill a destiny

Seething  
Fast breathing  
Nightmares grow  
On I run  
Still my shadows follow  
On I run  
But still my shadows follow

Cut and run, hide away from fate  
Cover up, try to hide the hate  
Like a wolf, it won't let me be  
Closing in, wish away, shut my eyes

Wish it away

Seething  
Fast breathing  
Nightmares grow  
On I run  
Still my shadows follow

Facing  
My demons  
Now I know  
If I run  
Still my shadows follow

I say "No!"  
Still my shadows follow
