

Come Get Some

Method Man

Something's out there, something that forced its way into our world
Listen up
Come get some
Evil Dead
Shout to Sam Raimi, Bruce Campbell

Dead by Dawn
Swallow your soul
Similar to if I kick in your teeth:
Swallow a sole
You a dub, W Clan
Y'all can swallow us whole
Or get snubbed
With these two cans
If you follow my nose
I'm goals
Take a shot, from the grassy knoll
I can school you with the Drako
This ain't Degrassi, Though
Under siege feel like Waco
Y'all should already know
Got this red dot mark on you
Marks like ready go you
Horse around, get around like a merry-go
Catch a big fish, I'm not Moby Dick
But there she blows
See that boom stick get cha boom boom click my flow
Make the room sick, and put the sick sick six below
Y'all like who this, Maskin an MF'er like DOOM is
I do this so deadly, with mics like Dr. Loomis
This is Necronomicon music, what else would you expect from the Necronomicon
stupid

I see dead people
Ivory smoke in my face, I raise the eagle, and leave you
I guess he dead people
These rappers ain't it
Just roaches in my ashtray
They 32s ain't touching
These 40s on a bad day
Knotty dread is in your area
I bring damage, yeah, the man is here
Your bro want to try to front, I'll vanish him
Yeah it's PXWER, I'm stepping big foot prints
You dummies follow leaders, I was father before fifth
You suckers just don't get
Hold on, taking my fifth hit
Then it's back to the verse quick
Everyday is like my birthday, I'm mad gifted
Get your flame blown out if that's just my wishes
Sha vicious, you just a little fearsome
Have brodie put the metal to your ears
Like you tryna pierce 'em
I'm different, far from your average alley cat
Top dog, Prince of Staten, you know where I be at

Now, I must admit, that I can't live with this evil eye

Would rather use my third eye, to try and beat you live
It's what I get when it's time to flip 'til the evil die
It's what they did, but you dead after they eat you now
I must admit, that I can't live with this evil eye
Would rather use my third eye, to try and beat you live
It's what I get when it's time to flip 'til the evil die
It's what they did, but you dead after they eat you

Come get some
Alright
Come get some
Come get some
Come get some
Truly Amazing
