## Method Man

Yeah, uh  
The I-N-T-E double L  
Here we go, uh  
Yeah, the meth lab, uh  
Here we go...

I said shout out to the West side but I'm from the East side  
And you know that we ride  
Bumpin' hard beats off the G ride  
Throwin' up the peace sign  
Lookin' for some feline  
Crushin' power you, that's how I do it in the mean time  
I said shout out to the West side but I'm from the East side

I said welcome to the rec room, not a lot of headroom  
Know I'm sacrificin' virgins, catch the beats in my bedroom  
Go against the W, then you might be dead soon  
I could make the sky bleed, bet'cha I call it red moon  
I never been ordinary, carry weapons more than heavy  
Mind was designed to be primed 'cause I'm more than ready  
If you sharpen your machete, better get that coffin ready  
Run up in your crib, I fuck your wife and eat up your spaghetti  
All I do is write rhymes, smoke trees and pipe dimes  
Hustle all day then continue through the nighttime  
Nasty like a pipeline  
Vigilantly fight crime  
Rappers are my sons, I be worried like a white mom  
Wu gang is next up, better have them checks cut  
Taxes too high, bye Felisha  
Man, we fed up, other rappers sped up  
They be outta pocket, see, I can't wait 'til I ball out like Fetty Socket

Yeah

I said shout out to the West side but I'm from the East side

You rockin' wit' the best, y'all  
Verbally I'm skilled, plus, sometime I take the S off  
That'll leave you killed, bucket list that you've been checked off  
Meth with the F, basically it's me and F y'all

How can I forget Protect Ya Neck, dawg?  
Not X, dawg, love some DMX  
I am practically D-M an X, dawg  
Matter fact my next bar colder  
Better yet, it's hot yoga  
You get stretched forward, dawg  
Do respect, I don't respect y'all  
That said, I'ma keep the track fed  
Look, if he ain't dead, he better act dead  
P-L-O forever, peace to Achmed  
Type to say what's crackin' to a crackhead  
Blacker than your face, that's a blackhead  
Need to be Proactive  
These rap kids need to know the meanin' of what rap is before they say they rappers  
I can say I mastered everything they talkin' 'bout  
And after it's all said and done, you'll see my jersey in the rafters

I said shout out to the West side but I'm from the East side  
And you know that we ride  
Bumpin' hard beats off the G ride

I'm sorry to keep you waitin' 'cause I've been cultivatin'  
Thuggish through my duration  
Doin' to public relations  
Countin' money and doin' TV shows  
I can't believe he goes underground then mainstream  
Super supreme and the C.R.E.A.M. rules everything  
You fools do a lot of talkin' but you never swing  
And that's on everything  
See, I'm a king so I look upon my scruples  
And then pinpoint which one will be my next pupil  
Concentrate, it's levels and layers  
Devils and players  
Joker's Wild  
While I'm strokin' 'em down, we'll be smokin' a pound  
And we came to partay  
Three, The Hard Way  
Johnny Blaze, Snoop Dogg and my nephew  
You can't smoke wit' us  
Nigga, we left you in the dust on the bus  
Homie, we don't give a fuck  
Long Beach, nigga
