

## 2 Ways

### Methods Of Mayhem

I tried every single way got so hard I had to throw it away  
You'll count on God to make it right, but we're all his slaves  
tonight

You know you can run and you can't hide there ain't no way around it  
You love ,take your time and live your life there's no 2 ways about it

There ain't no telling what they'll do, you only pray that they don't do it to you  
They say "life sucks and then you die" you'll still be wonderin' why.. wonderin' why..

You know you can run and you can't hide there ain't no way around it

You love , take your time and live your life there's no 2 ways about it  
Look inside  
Outta time  
No 2 ways about it

Someone comin down everybody runnin round  
Wake up look around evrybody's fallin down  
Someone comin down everybody runnin round

You know you can run and you can't hide there ain't no way around it  
You love ,take your time and live your life there's no 2 ways about it  
Look inside  
No 2 ways around it
