

# Ghosting

Methyl Ethel

As a breath so cold  
Sure as a neck tingles  
Your grave  
Was momentarily a freeway

Easy come and go  
Payment on arrival  
But it's checkmate  
See, you were never a survivor  
Just a poor lost soul  
A poor lost soul

Save a little dough  
It's full time to keep smiling  
So why wait?  
Get it now, get your day made  
There's a whole world to escape  
Watch it fade  
You can reset  
Get a wash  
For your poor lost soul  
Poor lost soul  
Poor lost soul  
Poor lost soul

I'm on the corner, it's all right  
I got the good shit

I'm on the corner, it's all right  
I got the good shit

I'm on the table, it's all right  
I got the good shit  
I'm on the table, it's all right  
I got the good shit

I'm on the water, it's all right  
I'm on the ghost ship  
I'm on the water, it's all right  
I'm on the ghost ship

Come on, baby, it's all right  
I'm not the worst there is  
Come on, baby, it's all right  
I'm not the worst there is

Come on, darling, it's all right  
I'm not the worst there is  
Come on, darling, it's all right  
I got the good shit
