

Hummingbird

Metro Boomin

Metro

Ayy, lil' Metro on that beat

Hummingbird, summer sun, has it brought my life back?
Hangin' in the balance, have you brought the light back?
And how long's the night shift? She's sure I get away with
Realizin' she might be all I need in this life

When I saw a cold snap, I wasn't with the season
Attack was on the airport and outside there was a season
In here paper walls are pushing back on you like
Eventually you push through, the moment that you realize

And hummingbird, I know that's our time (That's our time)
But stay on, stay on, stay on with me
And hummingbird, I can never unsee
What you've shown me, stay on, stay on with me

Hummingbird, summer sun, has it brought my life back?
Hangin' in the balance, have you brought the light back?
And how long's the night shift? She's sure I get away with
Realizin' she might be all I need in this life

The moment when you realize there's someone there that needs you
Light band all the feelings, I text them for no reason
I added love 'cause love is unconditional
I count on love, I count on love
'Cause love is unconditional within reason

And hummingbird (Hummingbird), I know that's our time (I know that's
our time)
But stay on, stay on, stay on with me
And hummingbird (Hummingbird), I can never unsee (Never)
What you've shown me, stay on, stay on

Would I sign up again?
Would I sign up again?
And the night was so strong
Forget the time like life is long
Wings beating a thousand strong
Would I sign up again?
Would I sign up again?
And the night was so strong
Forget the time like life is long
Unconditional within reason

And hummingbird (Hummingbird), I know that's our time (I know that's
our time)
But stay on (Stay on), stay on, stay on with me (Stay on, stay on)
And hummingbird (Hummingbird), I can never unsee (Never)
What you've shown me, stay on, stay on
