Missin' when you not around and you away  
I done blew three hundred thou', but it's okay

Everything we do is fire  
You know that you got it goin' on (Dance like you dancin' on a pole)

It be times when I be honest, people take me for granted  
It be times when I'm alone, I know I need my sanity  
It was times I never should've gave away my energy  
Should've saved my energy, made me stronger, new enemies  
Misery, misery love company  
It be nights like this I need my family  
Lost times playing tricks on my memory  
Sippin' cod', coughin' like it Louis XIII  
Drop the top and spin the block, in the Phantom with me  
These bitches hot, but they still can't hold a candle to you  
740 jet take us around the world if it's cool  
I don't trust you, but I still shared my location with you  
All this paper, I don't know if you is just using me

I don't wanna get abandoned, that ain't new to me  
It get lonely in the mansion, put my mind at ease  
You gon' always have my heart, girl, as long as I breathe (Pluto)  
Yeah

Nights like this, I need all of you  
Nights like this, I send a car for you  
Nights like this, it's hard to talk to you (Yeah)

Dance like you dancin' on a pole (How you want that?)
