

# Comin' Around

## Metro Station

Feelin' you comin' around  
You're breaking me down (breaking me down)  
Move on, move on, move on  
Come on, get out  
Move on, move on, move on  
Come on, get out

I keep talking cause I just need you to know  
My motives were always to let you go  
Your heart is pumping  
The beat it fills the walls  
This conversation is just to watch you fall  
I still turn you on  
This is your last chance to get some

Feelin' you comin' around  
You're breaking me down (breaking me down)  
Move on, move on, move on

Come on, get out  
Move on, move on, move on  
Come on, get out

You hold your ground  
Come on, give up this fight  
The sun's down  
So you let me stay the night  
The room's quiet  
The whispers in your ear  
Will cause your body to somehow get so near  
(to some how get so near, to some how get so near)

I won't talk  
I'm in it just for this  
These moments are something I will make  
You shed a tear  
There's a feeling down below  
That makes pain somehow die so slow  
I'm getting you off

Feelin' you comin' around  
You're breaking me down (breaking me down)  
Move on, move on, move on  
Come on, get out  
Move on, move on, move on  
Come on, get out

Feelin' you comin' around  
You're breaking me down (breaking me down)  
Move on, move on, move on  
Come on, get out  
Move on, move on, move on  
Come on, get out
