

Ocean Waves

Metro Station

I was sipping, we were drinking at the party
For some [?] you were throwing back Bacardi
Share a cigarette by the street so we could be alone
If I call you girl will you pick up or will you lead me on

Felt like a king with you on my Harley
Black leather, red lipstick
Girl, I'm falling, catch me quick
Fell in love with me, I threw it away
I'm lonely and last days I drink away the pain

I can't feel the ocean waves anymore
Blinded by the sun, threw a bottle by the shore
Hoping that you will find it, yeah
Let's start over and just rewind it, yeah
This was the beach where we first made love
California ocean in my pickup truck
We were kissing and touching like crazy, yeah
On my mind all the time and you're causing me to break down

Coke and rum is your only best friend
You said you play for keeps, I guess it was just pretend
Bought you a diamond ring that I kept in my pocket
Couldn't pop the question cause we already lost it

Felt like a king with you on my Harley
Black leather, red lipstick
Girl, I'm falling, catch me quick
Fell in love with me, I threw it away
I'm lonely and last days I drink away the pain

I can't feel the ocean waves anymore
Blinded by the sun threw a bottle by the shore
Hoping that you will find it, yeah
Let's start over and just rewind it, yeah
This was the beach where we first made love
California ocean in my pickup truck
We were kissing and touching like crazy, yeah
On my mind all the time and you're causing me to break down

Hey, do you wanna lay right here?
Hey, deep in my arms together
Hey, promise that you won't disappear
Hey, remember when you said forever

Strong as tequila I never wanna leave her
I'm thinking back to that summer
She always brought the thunder
Kissing in a Chevy by the moonlight
If I can't get you back I'll never feel alright

I can't feel the ocean waves anymore
Blinded by the sun, threw a bottle by the shore
Hoping that you will find it, yeah
Let's start over and just rewind it, yeah
This was the beach where we first made love
California ocean in my pickup truck

We were kissing and touching like crazy, yeah
On my mind all the time and you're causing me to break down
