

## Half An Inch

## Metronomy

Half an inch off 6 foot tall does God pity this fool?  
Eyy  
Half an inch off 6 foot tall does God pity this fool?  
Give it to em give it to em  
Half an inch off 6 foot tall does God pity this fool?  
She's playing mind games with Michael  
I bounce off a broken branch and stand tall  
Bounce off a broken branch and stand tall  
Bounce off a broken branch and stand tall  
Bounce off a broken branch and stand tall

It might pause for a sec but the gloom shall resume  
Gemini life you best kiss the dice  
I'm a summer time dude  
River cottage flooded and fucked up my food  
Feet of a hobbit I skip over dunes  
Like a rare steak I'll be done too soon  
Fork in my belly cos my baby is a boom  
The type to liven tea up with a shroom  
Type these letters right up to the moon  
But he couldn't keep up cos he's cupping on a spoon  
Walking around with the whos of the whos  
Looking forward to the last place you lost your mind to  
I'm in tune with the off keys in the room  
I'm riding high and don't need a broom  
My mind comes alive when the darkness looms  
Dreams of red carpet and a suit from Koons  
Pass the ball cos I've got a shot too  
Play the role of a shotter I do I  
Smell a copper without seeing blue  
I, sell my soul without selling who I am  
This dog keeps barking cos you're pecking on his ham  
Gremlins grunt like it was slam jam  
Dad was a postman the only way we were getting bands damn  
You were buying drinks whilst I was getting banned  
Who are the peasants eating up off my land?  
Fuck patriarchy tea cup I slam  
My mood is high  
I'm in a Jim of a jam  
Like pow clap your hands

For free never did come a grand  
I see 43 and know it's going to plan  
On the moon I land cos this world I can't stand  
Like God give me a helping hand  
Life's disappearing like hour glass sand  
Oh damn oh damn  
Just a quick insight in to the life of Pinty on a Metronomy beat  
You know what I'm saying

Half an inch off 6 feet tall does God pity this fool?  
She's playing mind games with Michael  
I bounce off a broken branch and stand tall  
Bounce off a broken branch and stand tall  
Bounce off a broken branch and stand tall
