

## Mick Slow

## Metronomy

You're never around it's not enough  
But I can forgive that stuff  
I couldn't have found out hard enough  
Yeah it's pretty tough

Light marks above the letter  
Front's coming together  
And I've checked the weather  
It's only getting wetter man  
Now dance something real  
A toe - tap a heel  
I'll tell you the deal  
It went to a better man  
Keep one eye upon the sun  
Heart beats loud like big bass drum  
Something unbelievable  
Has come when it needed to

Keep one eye upon the door  
Look for what's incredible  
Something unbelievable  
Like I've never see before

I've got something better  
Perfect for this weather  
You and I together  
Might it last for ever?

I know you  
I know you  
I know you  
I know you  
I know you  
I know you
