

## Nice Town

Metronomy

Speak me into existence  
Then rob me of my innocence  
Then thank me for my diligence  
Play me like Sega Genesis  
Oh how I wish that was true  
I dare not try to blame you  
I only did more than I could do  
I only bit more than I could chew  
This next place, I won't take a fall  
This next place, I'll be above it all  
And follow better the protocol  
Nice Town  
Nice Town

My new flat's got me hummin' man  
Skylight rooftop and summer rain  
My porch and my cold lemonade  
Square dance mingle and promenade  
Burn incense with my subconscious  
Try to make sense out of the nonsense  
Turn a blind eye to redundance  
Convince myself no one could've done this  
Clap my hands to the singalong  
They'll love me more when I get it wrong  
Nice Town  
Nice Town

Identify with the crackpots  
Identify with the have not's  
Identify as the mascot  
Pour all of 'em wine and laugh a lot  
I'll rule you and not rule me  
I'll fool you and be foolin' me  
Since you're so anti-community  
You'll buy into my community  
Nice Town  
Wait
