

FOR THE PEOPLE

METTE

Ooh, child, pity the fool, child
Tell 'em get out your way
Out your way
Then we push through, child
Tell 'em the truth now
What have you got to say?
Got to say

Babe, I'm lookin' at the diamond in your eyes
Something burnin' right, right through the night
Don't kill your desire, never stop that fire
We want you to return

Yeah, I'm one for the people
Run wild with the people
Big chains, no shame
When you got good blood with the people
Get paid with the people
Make waves with the people
If your two hands free, better touch the sky
Better pray for the people

For the people
Follow your heart so you never lose sight, ayy
Find your way back, find your way
Too late to vibe, you can, you can, you can, you can
Let me go get mine

Stand by your side through the lonely nights
Keep on carryin' on
Keep on nine to five
Fever, dealer, and don't apologize
We be having love
Now we get higher

Yeah, I'm one for the people
Run wild with the people
Big chains, no shame
When you got good blood with the people
Get paid with the people
Make waves with the people
If your two hands free, better touch the sky
Better pray for the people

For the people
Follow your heart so you never lose sight, ayy
Find your way back, find your way
Too late to vibe, you can, you can, you can, you can
Let me go get mine, for the people
Follow your heart so you never lose sight, ayy
Find your way back, find your way
Too late to vibe, you can, you can, you can, you can
Let me go get mine

True north, meet me home
You, me, modest souls
Get deep, catch fire now

Yeah, yeah (Let me go get mine)
One take, masterpiece
Amen, rest in peace
The bass sound in the background
(Let me go get mine)
