

## Common Trash

Metz

Tonight is giving away today  
Your eyes are giving it away  
Turn it off and let it die  
Turn it off inside

Wade through the common trash  
We're all just common trash

Somebody's leaving us astray  
You say it's been an obvious way  
Shut it off and tell a lie  
Shut it off inside

Wade through the common trash  
We're all just common trash

Your in his face for every night and day  
We all just sit away till  
There's nothing left to love, love, love  
There's nothing left to love, love, love  
There's nothing left to love, love, love  
There's nothing left to love
