

## Draw Us In

Metz

Push it forward, taking it back  
Holding it ransom and veering off track  
My love, my love  
My love, my love

You and I were lost from the start  
Looking me over, I'm falling apart  
My love, my love  
My love, my love

When's it all done?  
I feel it coming  
When's it all done?  
I feel it coming

All I see is yesterday's meal  
Forcing it down and learning to feel  
My love, my love  
My love  
Fade it out just to fade it back in  
There's nothing without the other when something's missing  
My love, my love  
My love

Another day breaks the disguise and there's nowhere to hide  
The memories seep through the cracks and I'm there by your side  
I'm veering off track and you watch as I'm falling apart  
It's never the same, it's never the same

Memories drawing us in  
Won't you listen?  
All clear now  
Come on, won't you listen?

Come on, won't you listen?  
Come on, won't you listen?  
My love, my love  
My love
