

Light Your Way Home

Metz

When I'm close to you
There's somewhere I go
Where everything is new

Counting the lost days
I'll never know
One thousand miles away

It's never the right time to
Make it right
I'd set it all on fire
To light your way home
Light your way home

If only I could see
What isn't shown
I'd clear a path for you

If only you'd believe
Those days are gone
I would promise you

It's never the right time to
Make it right
I see it in your eyes
We've lost the fire
Now you're far away
Where I can't go
I'd set it all on fire

Light your way home...
