

## Mr. Plague

Metz

You faded miracle  
Just raw material now  
Down in the city streets, they go away  
They like to walk beside me, don't know what to say

Plague, [?] material  
Plague, [?]  
Plague, [?]  
Plague, today

Your foundation shook  
And you kept it a neck away  
And they've all been taught [?]

Plague, [?] material  
Plague, [?]  
Plague, [?]  
Plague, today
