

## Raw Materials

Metz

I found a new one  
A way to step outside  
The light [?]  
It's still crying in there  
Still life, still life, still life, still life

I thought I missed the day  
You held a crown

Keep me right here in your  
Still life, still life, still life, still

They all keep telling us  
Until it comes so well  
They won't stop pushing us  
Into the backround

It's still crying in there  
Still life, still life, still life, still life

They all keep telling us  
Until it comes so well  
They won't stop pushing us  
Into the backround
