

## Sad Pricks

Metz

Don't want to wake up in the morning  
I've got to clear my head  
I'm getting pulled in a million directions  
I should've stayed in bed  
Don't want to know (Everyday there is something wrong)  
Don't want to know (Everyday there is something wrong)  
Don't want to know (Everyday there is something wrong)  
Don't want to know (Everyday there is something wrong)  
Don't want to watch the television  
Or pick up the phone  
So many different people talking at me  
Why don't they leave me alone?  
Don't want to know (Everyday there is something wrong)  
Don't want to know (Everyday there is something wrong)  
Don't want to know (Everyday there is something wrong)  
Don't want to know (Everyday there is something wrong)
