Sink

Metz

I've seen it watching over, love
I've seen it watching over, love
Let it try to feed
I've seen it watching endlessly

All day long it's been calling to me

All day long it's been calling to me

I watch you follow it to the ground
I watch you follow it all around
And it starts to believe
I've seen it watching constantly

All day long it's been calling to me
