

## Wherever

Mew

It doesn't matter where you are  
Someone is there with you, I fear  
It doesn't matter where you are  
I can't complain  
Ignore the stain  
Christmas day is over  
Lights out, breathe slower

Cannot sleep  
Open your eyes  
Look outside  
Tell your goodbyes

It doesn't matter where you are  
When you're alone  
Light a small fire  
I don't like your sparkles at all  
Guitarist and his centerfold  
Why is that fire old?  
A green light is a red light  
In your dreams tonight  
It's like a battle, battle.

Christmas day is over  
Lights out, breathe slower

I told you why I am lonely  
But you can't stay  
Tomorrow, streets, blank faces  
Stare unwilling  
But there are so few

Cannot sleep  
Open your eyes  
Look outside  
Tell your goodbyes

Cannot sleep  
Open your eyes  
Look outside  
Tell your goodbyes

And I'll be waiting around your house
