Who's mental was tamed to get over in this musical game
When the Madvillain breaks your dome you'll see your interval depth
Was written for those that slept, we took one-hundred per cent
Unpredictable steps... Say what?
Who's the one that rocked up a party with the vigilance urge
When smokin' the ism the vision is blurred, but vengeance is heard
And just when ya got caught up in the cynical thought
Intervals in the shape of a mic get pushed straight through your heart like...
