

# Lactose And Lecithin

MF DOOM

"Hello, I'm Dean Stockton of Eastern State University in America, and I am prepared to offer you a full science scholarship."  
"Viktor used the college-used its modern scientific equipment to conduct modern strange, forbidden experiments."

Somewhere out in cop-killin' Queens  
Where bo deans stop limousines and niggas flee the scene  
Somebody on his back bleeding vest all cracked up  
'Freeze clown officer down request for back up'  
Listen dude don't get me misconstrued as a sniper  
It's V Vaughn not to be confused with V la viper  
Or either Peter Parker  
Or either Peter Piper  
A seed the type to pee the diaper blame it on the wiper  
It's really not your concern why I got the knife sir  
He suggest remain calm let's not get -- 'No!'  
Slash his windpipe he had them type of eyes  
He might be still alive  
How you get this thing to hyper drive  
Oh  
Give my props to the shooter  
Prices at a all time low in the future  
Something like fourteen they must be on horse pills  
O T and zero three to re up on force fields  
At that cost, deal, he plotted the coordinates  
Two thousand three winter time upper west side more or less  
This thing be buggin like a cell phone frontin  
Now who the hell is honey wit the slug in her belly stuntin  
You ain't have to tell V nothing  
Trust him  
It really ain't no time for discussion  
He'll be back in ninety three press of a button and they busted in  
His first impulse was to smack the dirt  
All four wore plain clothes and lumberjack shirt  
Recognize one face from school six degrees ago  
He'd snuff him in his braces just to switch the station to BGO  
He kept a punch line every lunch break lunch time  
And this is no time to pump fake it's crunch time  
The same split second they let off the toast  
That's when he hit the speed dial and sped off ghost  
I know those cats don't like V  
And if they took my head off they'd get off most likely  
And probably thought the time gizmo was my wallet  
And hit the hills forty more times on some foul shit  
Pick a crime he was out in the nick of time  
To get paid another day and live to kick a sicker rhyme  
For iller, it's like Miller malt liquor time  
Up town finery where it's probably not best to flaunt  
Everyone's your best friend V steps into the restaurant  
My friend, he said, you must be psychic  
What's the price of- Fourteen!  
It's good, you like it!  
Huh, be back tonight the fourteen G pack was really packed tight  
But back at the lab he found that the Sleestak was right  
Not only was it three cracks light but too white  
The test show lactose, anbesol  
Lecithin five types of aspirin and other kinds of medicines

Next time I'll bring my men who speak Mexican  
And let the Techs spin  
Make 'em contact the next of kin  
The whole thing is mostly lactose  
Lecithin and some type of aspirin, anbesol medicine  
Damn, mothafucka  
Let's go get 'em, men!
