MF DOOM

"-Life is too..."
Two two one-two

How DOOM hold heat then preach non-violence?
Shhh, he about to start the speech, c'mon, silence
On one starry night, I saw the light
Heard a voice that sound like Barry White, said "Sho you right"
Don't let me find out who tried to bite
They better off goin' to fly a kite in a firefight
During tornado time with no coat than I caught ya
Wrote the book on rhymes, a note from the author
With no headshot, he said it's been a while
Got a breadwinner style to get a inner child to finna smile
And that's no exaggeration
The doctor told a patient "It's all in your imagination negro"
Ahh, what do he know?
About the buttery flow, he need to cut the ego
Trippin', to date the Metal Fellow been rippin' flows
Since New York plates was ghetto yellow with broke blue writing
This is too exciting
Folks leave out the show feelin' truly enlightened
They say "The Villain been spitting enough lightning
To rock shock the Boogie Down to Brighton," alright, then

Yeah, check, it's enough
Uh, yeah, now

How M.E.D. hold heat like Clint East is reborn?
Leave you with more holes than a dartboard
Haters watch him, Hennessy double shot drink
Like the answer to the problem's at the bottle's bottom
Uhh, from the bottom, top that homey, pay how you owe me
My niggas take no like Kobe
Even with the the arms of the Hulk, you couldn't hold me
From gettin mines, stogies be rolled, smokin and gettin by
Thanks to rap I ain't got a dime
Got me sneakin out of checkout lines with bottles by the waistside
Yeah, smack 'em in the face, let 'em taste pride
Face trial, end up washed up like the shorelines
Do or die ride, how the dead return
Street turns, keep me in this dirt like an earthworm
What he spit hits and grows, will brothers ever learn
Worth a word, chat with a nerd, meeting adjourned
