You're an air cooling vibration
In a mass communication
Call the race

Average individuals
They all send their subscriptions

We're living in a big big global ball
Hanging right, here in space
Where do you gonna big big load

We'll reach our destination
We'll be added complication
There's an insane population
Call the race

Hanging right, here in space
Where do you gonna big big load

We're living in a big big global ball
Hanging right, here in space
Where do you gonna big big load

As it passes by the race will be erased

We're living in a big big global ball
Hanging right, here in space
Where do you gonna big big load
