

Worms, hungering for all the dimensions
Eat through my heart and form within my dreams
Spawn of Leviathan flows through my veins
To gracefully poison thoughts of men

Blessed by ultimate corruption
Souls swallowed by Leviathan
Ridden with divine infection
Scalded by the Satan's sun

Cut by broken mirrors, razor keys
Opening the chains of self-control
Ultimate desolation triumphant
Inner peace achieved through will perished

Eradication of all what was taught and perceived
And eradication of will as a whole
Blazes of consciousness frozen
With subzero waves of energy annihilation
