Hand It Over

MGMT

'Cause the deals we made to shake things up
In the rights that they abuse
Might just fuck us over
But the doors won't shut
Until they're sure there's nothing left to use
Someone's taking over
Threw it away, but now I say
It's time to hand it over

The joke's worn thin, the king stepped in
Oh, we'll see who is who
Look who's bending over

But the stars weren't wrong, the time felt right
We both know it was true
The smart ones exit early
And the rest hope for a shoulder

If we lose our touch, it won't mean much
If everyone's confused
Which door do we open?

It's the time same old trick
They played the hand
Now there's one thing to left to do

It's time (Hand it over)
It's yours and it's mine (Hand it over)
One thing on my mind (Hand it over)
It's rightfully mine (Hand it over)
Anytime (Hand it over)
What's yours is mine (Hand it over)
Make it right (Hand it over)
And give me what's mine (Hand it over)

Oh, this time (Hand it over)
It's yours and mine (Hand it over)
Hey, it's time to hand it over
Just give me what's mine (Hand it over)
Mmm, take your time (Hand it over)
It's yours and it's mine (Hand it over)
Ooh, I need time (Hand it over)
No, it's rightfully mine (Hand it over)
Oh, anytime
