

Forever Falling

Mia Wray

One day
When we're old
I'll hold you while we're falling
And one day
If you're hurt
I'll heal you with our powers

Cause I've seen many things
But i've never seen someone like you
Now that i'm falling
I'm falling for you
And I've heard all your songs
But I've never listened like i do
Now that i'm falling
I'm falling for you

Ice melts
When you're near
Cause I feel you and we disappear
Your skin soft to touch
Wrap your wonders in my thoughts
And kiss me so

Cause I've seen many things
But i've never seen someone like you
Now that i'm falling
I'm falling for you
And I've heard all your songs
But I've never listened like i do
Now that i'm falling
I'm falling for you

Oh 2x

Cause I've seen many things
But i've never seen someone like you
Now that i'm falling
I'm falling for you
And I've heard all your songs
But I've never listened like i do
Now that i'm falling
I'm falling for you

Oh 2x

And one day
When we're old
You'll catch me
Forever falling for you
