

Ghost In My Machine

Mia Wray

What's come over me?
So wild and free
My big machine
She's breaking down (She's breaking down)
Three-six-five
I love my life
Was floating high
Now I've hit the ground

Hitting my chest like a lead balloon
Don't have a dream but it's coming true
And then you walked into the room
My world stopped turning when I looked at you

How could I know that you'd save me
And make me feel like I just met me? Oh
Could you let me down? Cut me loose?
My world stops turning when I look at you
I didn't know I was ready
Easier if you just hate me, 'cause
I've broken down, what does it mean if
You've become the ghost in my machine?

Swimming deep
Just wait and see
I've dipped my feet
On solid ground, what's that about?
Suddenly
She is wild like me
Now I can't believe
She turned me around, like I'm upside down

Hitting my chest like a lead balloon
Don't have a dream but it's coming true
And then you walked into the room
My world stopped turning when I looked at you

How could I know that you'd save me
And make me feel like I just met me? Oh
Could you let me down? Cut me loose?
My world stops spinning when I look at you
I didn't know I was ready
Easier if you just hate me, 'cause
I've broken down, what does it mean if
You've become the ghost in my machine?

Taking over my controls
Systematic overload
Tangled all the wires and I can't sleep
You've become the ghost in my machine
Yeah, yeah
You've become the ghost in my machine

How could I know that you'd save me
And make me feel like I just met me?
Could you let me down? Cut me loose?
My world stops spinning when I look at you

I didn't know I was ready
Easier if you just hate me, 'cause
I've broken down, what does it mean if
You've become the ghost in my machine?
You've become the ghost in my machine
