

# Made With Fire

Mia Wray

I'd rather love than to start a war  
I've been thinking what I was made for  
In my eyes awake as I, I see it now  
It's been so long since I figured out how  
Oh it's been so long since I figured out how

So watch us run  
Through the mountains  
Watch us escape  
And dance in the rains  
You have not lived  
Until you've loved  
So I'll be waiting for you there  
Oh, my love, I was made with fire

So I, I call you up and I say  
"Just wait a while until it hits you in  
The middle of your mind"  
And yes of course I have  
I've been here before  
But in another life at another time  
Oh it's been so long since I figured out why

So watch us run  
Through the mountains  
Watch us escape  
And dance in rains  
You have not lived  
Until you've loved  
So I'll be waiting for you there  
Oh, my love, I was made with fire

So watch us run  
Through the mountains  
Watch us escape  
And dance in rains  
You have not lived  
Until you've loved  
So I'll be waiting for you there  
Oh, my love, no  
'Cause I'll be waiting for you there  
Oh, my love, I was made with fire
