

# Monster Brain

Mia Wray

Connection comes and goes  
I'm going through a phase  
With you and I alone  
And baby, I can't see it clear  
Mhm

I've come to terms with this  
And now I should explain  
I put my foot in it  
There's a monster in my brain  
I just thought you should know

Whenever I call you, whenever I hold you  
I just need you to know how much you mean to me  
Nothing compares to the love you have for me  
When it seems I'm in a Neverland, monster brain in command  
You say: "Can't stop the light, can't run from the fight"  
My dear

And you'd never know how much  
Your patience means to me  
'Cause I'm so out of touch  
Thank God, you can read me

And I'm so scared  
I might go down an unforgiving road  
It's not a test I want you to take  
But sometimes I can't control my words  
That's why I need you to know

Whenever I call you, whenever I hold you  
I just need you to know how much you mean to me  
Nothing compares to the love you have for me  
And it seems I'm in a Neverland, monster brain in command  
You say: "Can't stop the light, can't run from the fight"  
My dear

Oh, it's taking over all  
These words [?]

Whenever I call you, whenever I hold you  
I just need you to know how much you mean to me  
Nothing compares to the love you have for me  
When it seems I'm in a Neverland, monster brain in command  
You say: "Can't stop the light, can't run from the fight"  
And it seems I'm in a Neverland, monster brain in command  
Can't stop the light, can't run from the fight  
My dear  
My dear

Can't stop the light, can't run from the fight

Can't stop the light, can't run from the fight  
My dear
