Forget it, I know how you want it
A huh I'm not her
Don't wanna talk about it

I see it when you lie when you come back run back
Wondering why I didn't call back
Look me in the eye I know you
Don't wanna talk about it

Cause I love you babe and I want you to stay here
It's a two way road but it feels like we ride in a one way, one way

Ooo honey, take it down
I wanna wear the crown
You should see me now
Ooo honey I got needs too
Need you to please please please
Please my needs

Address it
I know how I want it
Ah huh I'm a woman
I wanna talk about it

I see it when you lie when you come back run back
Wondering why I didn't call back
Look me in the eye I know you
Don't wanna talk about it

Cause I love you babe
And I want you to stay here
It's a two way road
But it feels like we ride in a one way, one way

Ooo honey, take it down
I wanna wear the crown
You should see me now
Ooo honey I got needs too
Need you to please please please
Please my needs

Oh I got needs too
Oh I got needs too
Oh I got needs too
Oh I got needs too

Ooo honey I got needs too
Need you to please, please
Need you to please, please
Please me too

Honey, take it downtown
I wanna wear the crown
You should see me now
Ooo honey I got needs too
Need you to please please please
Please my needs

Oh, Oh
