

# Needs

Mia Wray

Forget it, I know how you want it  
A huh I'm not her  
Don't wanna talk about it

I see it when you lie when you come back run back  
Wondering why I didn't call back  
Look me in the eye I know you  
Don't wanna talk about it

Cause I love you babe and I want you to stay here  
It's a two way road but it feels like we ride in a one way, one way

Ooo honey, take it down  
I wanna wear the crown  
You should see me now  
Ooo honey I got needs too  
Need you to please please please  
Please my needs

Address it  
I know how I want it  
Ah huh I'm a woman  
I wanna talk about it

I see it when you lie when you come back run back  
Wondering why I didn't call back  
Look me in the eye I know you  
Don't wanna talk about it

Cause I love you babe  
And I want you to stay here  
It's a two way road  
But it feels like we ride in a one way, one way

Ooo honey, take it down  
I wanna wear the crown  
You should see me now  
Ooo honey I got needs too  
Need you to please please please  
Please my needs

Oh I got needs too  
Oh I got needs too  
Oh I got needs too  
Oh I got needs too

Ooo honey I got needs too  
Need you to please, please  
Need you to please, please  
Please me too

Honey, take it downtown  
I wanna wear the crown  
You should see me now  
Ooo honey I got needs too  
Need you to please please please  
Please my needs

Oh, Oh
