

Never Gonna Be The Same

Mia Wray

I've never known you
Don't pretend you ain't lonely
You know how to act cute
'Cause I'm not your one and only
You know what, this ain't cool
Making me feel insane
And now it's never gonna be
Never gonna be the same
Never gonna, never gonna be the same

My momma told me not to fear my enemies
Know that I'm stronger than I think I am
Take any longer, it runs in my veins
I've got a voice and it's in command
I'm my own woman
I can feel it coming
It's never gonna be
Never gonna be
Never gonna be
Never gonna be the same

So this is what it feels like
To stand up for your power
You ain't gotta act right
You've got the brains, don't you cower
You've got potential
Breaking the rules of this game
And now it's never gonna be
Never gonna be
Never gonna be the same

My momma told me not to fear my enemies
Know that I'm stronger than I think I am
Take any longer, it runs in my veins
I've got a voice and it's in command
I'm my own woman
I can feel it coming
It's never gonna be
Never gonna be
Never gonna be
Never gonna be the same

In my heart I feel something
I've felt before, I'm not quite sure
Insecurities and bravery
Battling hard right through my scars
In my heart I feel something
I've felt before, I'm not quite sure
Insecurities and bravery
Battling hard right through my scars

Never gonna, never gonna be the same

My momma told me not to fear my enemies
Know that I'm stronger than I think I am
Take any longer, it runs in my veins
I've got a voice and it's in command

I'm my own woman
I can feel it coming
It's never gonna be
Never gonna be
Never gonna be
Never gonna be the same

Never gonna be the same
Never gonna be the same
Never gonna, never gonna be the same
