

# What If

Mia Wray

What if it's all I ever wanted  
What if that house back home  
Yeah we bought it

I read her energy  
When she's in front of me  
Even when I'm asleep  
She's what I need

If she's not there  
I would rather be lonely

Think I need surgery  
To put my mind at ease  
I'm not at liberty  
To be that free

If she's not there  
I would rather be lonely

What if I fall  
Cause I waited too long  
What if I risk it  
What if I'm wrong  
What if she's perfect  
What if it's not  
What if I hate what I lost

What if it's all I ever wanted  
What if that house back home  
Yeah we bought it  
What if you were stood right there  
With my t-shirt on  
You parked your car outside  
Played my favourite song  
What if it's all I ever wanted

I'm thinking bout our lives  
I go too deep sometimes  
Dancing around all night  
It's complicated right  
Guess I'm an optimist  
I know we've never kissed  
I'm in electric bliss  
Mmm

What if she's perfect  
What if it's not  
What if I hate what I lost

What if it's all I ever wanted  
What if that house back home  
Yeah we bought it  
What if you were stood right there  
With my t-shirt on  
You parked your car outside  
Played my favourite song

What if it's all I ever wanted

What if, what if  
It's all that I wanted  
What if, what if  
It's all that I wanted

What if, what if  
It's all that I wanted  
All that I wanted

What if it's all I ever wanted  
What if that house back home  
Yeah we bought it  
What if you were stood right there  
With my t-shirt on  
You parked your car outside  
Played my favourite song  
What if it's all I ever wanted

What if it's all I want  
What if it's all I want  
What if it's all I...
