

(BEYOND US)

Miami Horror

I love the way you see the world
All its beauty
All its magic

I love the way you don't see the world
Always dreaming
Always in your head

What do you think's out there, beyond the stars?

I don't think that's something we'll ever know
But here we are
Together, on a pale blue dot
Forever floating across the galaxy
And that's enough for me

But here we are, together
But here we are, together
