Imagination

Miami Horror

I walked to find I'd slipped inside of a daydream
That lead me to a place before my time
And I tried to climb a staircase made of light beams
But I fell right down into your arms to find

I want you to know
All about the things I'm dreaming
You're never gonna know
'Cause I'm lost with who I am

My mind passed through a rainbow trapped inside me
Reached at me with a nail pressed to my side
As my eyes tried to escape the wave behind me
The stars were spinning so we became alive

I want you to know
All about the things I'm dreaming
You're never gonna know
'Cause I'm lost with who I am

And I know that time is wasted
For true imagination
So leave it all behind us now

Visions in my mind break through
As I try to be there with you
Life fades away
We illuminate the day

Do it girl
Take hold
As we're floating through the sky

I want you to know
All about the things I'm dreaming
You're never gonna know
'Cause I'm lost with who I am

And I know that time is wasted
For true imagination
So leave it all behind us now

I want you to know
All about the things I'm dreaming
You're never gonna know
'Cause I'm lost with who I am

I want you to know
All about the things I'm dreaming
You're never gonna know
'Cause I'm lost with who I am

And I know that time is wasted
For true imagination
So leave it all behind us now

As you whisper in my ear

```
It all becomes so clear
The lights come down
As the sun sets over
The water looks so blue
Rising like the night I meet you

'Cause I'm lost with who I am
'Cause I'm lost with who I am
'Cause I'm lost with who I am
'Cause I'm lost with who I am
'Cause I'm lost with who I am
'Cause I'm lost with who I am
'Cause I'm lost with who I am
'Cause I'm lost with who I am
```
