

Restless

Miami Horror

Blue fire, lighting up the pavement
The night is feeling young, the streets are restless
My hands shaking like I need it
I don't know why, you got me sinking so low

Girl you got me restless
I got to know, don't keep me waiting
Set our love in motion, let's go
I can be yours

I don't know where we'll go from here
So let's feel all we wanna feel
I don't know where we'll go from here
Let's just take a chance
I can be your man

Desire, passes through my fingers
I never wanna know it keeps me restless
I try but everything is distant
And I know I might never be what you want
Baby

Girl you got me restless
I got to know, don't keep me waiting
Set our love in motion, let's go
I can be yours

I'm losing my mind...
[?]
I know you feel the same

Baby
Girl you got me restless
I got to know, don't keep me waiting
Set our love in motion, let's go
I can be yours

Feels just like I'm falling
I got to know
Set our love in motion, let's go
I can be yours

I don't know where we'll go from here
So let's feel all we wanna feel
I don't know where we'll go from here
Let's just take a chance
I can be your man
