

I've Got Your Back

Mic Christopher

We got the minds and we got the money
We got plenty of time 'cause we're on it
We got dreams just like the rest
But we've been 'round
Not hiding our souls in the shadows
We stand up and fight when it matters
We like facing up to the world
'Cause we've been 'round
But what will we do for the crowd
Well you know there's no rush on us now
'Cause we've got time dear
Here when we like
We've got a whole love of love on our side
We've got time dear
And we're holding on to it now
And by the way dear
I've got your back
And it's sure nice to be looking at
It's what I've got
and I'm holding on to it now
Stuck in a scene that is warlike
We're brushing off the things that we dislike
And now we're having a wail of a time
'Cause we've been 'round
And getting closer to our dreams
There'll be a mark here when we leave
So everybody'll know what we've been 'round
