

Caught Up

MIC LOWRY

Girl, don't get us caught up
In a losing game I don't wanna play
I'm caught up
Baby, we should run before it's said and done

We can't keep this going
Tears will fall you know it
Karma might come calling if we're
Caught up

I got a lover on the road
An I got a good girl at home
Trying to keep things on the low
Don't know if I can take much more

At first we were just friends
But now it ain't so innocent
I wish I would've left that shit alone

I know I'm playing with fire
Girl, I've been loosing sleep
I think that we should walk away
Before its gets too deep

Girl, don't get us caught up
In a losing game I don't wanna play
I'm caught up
Baby, we should run before it's said and done

We can't keep this going
Tears will fall you know it
Karma might come calling if we're
Caught up

I crossed the line
Too many times before
So many lies
If she knew I'd be done for sure

So baby, don't stress me
Why you calling when I said text me
Can't keep this up
I told you enough is enough

I know I'm playing with fire
Girl, I've been loosing sleep
I think that we should walk away
Before its gets too deep

Girl, don't get us caught up
In a losing game I don't wanna play
I'm caught up
Baby, we should run before it's said and done

We can't keep this going
Tears will fall you know it
Karma might come calling if we're

Caught up

Its just so wrong
Ain't a chance in hell we could go on
This ain't no love

Girl, don't get us caught up
In a losing game I don't wanna play
I'm caught up
Baby, we should run before it's said and done

We can't keep this going
Tears will fall you know it
Karma might come calling if we're
Caught up
