

Dangerous

MiC LOWRY

She ain't fucking with no scrubs cos the money all she wanna see
She only fucking with the plug cos the money all she really needs

She's leaving
In a drop-top Benz, no ceiling
Wearing all Louis V, new season
With a iced out neck, she's freezing
She's freezing

She got everything but she can never get enough
Got a lot of problems but she don't really give a fuck
Looking in the wrong places tryna find love
Got a lot of money but it could never buy her love

But that's alright
Do your thing
I know you like those finer things
Cartier
Diamond rings
She ain't looking if it ain't shining

She's dangerous an she's knows it
See her whipping in a foreign she rolling
See her dripping in diamonds she frozen
When the cameras out snapping she's posing

She's dangerous an she's knows it
When she moving that body she shows it
Dripping all in designer she's soaking
Ass so fat it nearly buss her jeans open

She's shining bright
Here tonight
She don't give a fuck
She's living the life

All the guys
Want a slice
But you've got to
Pay the price

She can give you all that you need
But her love ain't free
If you give her all that she wants
She'll fulfill your fantasies

But she'll lie to you
Once she's took your money she'll get tired of you
Sending mixed signals, won't reply to you
On to the the next one goodbye to you

But that's alright
She can do her thing
Cos she love those finer things
Cartier
Diamond rings
She ain't looking if it ain't shining

She's dangerous an she's knows it
See her whipping in a foreign she rolling
See her dripping in diamonds she frozen
When the cameras out snapping she's posing

She's dangerous an she's knows it
When she moving that body she shows it
Dripping all in designer she's soaking
Ass so fat it nearly buss her jeans open

All she see is dollar signs
VVS on her mind
Got to pay her for her time

She don't wanna fuck with you
Less you're making money moves
She got blood all on her shoes
So be careful

She's dangerous an she's knows it
See her whipping in a foreign she rolling
See her dripping in diamonds she frozen
When the cameras out snapping she's posing

She's dangerous an she's knows it
When she moving that body she shows it
Dripping all in designer she's soaking
Ass so fat it nearly buss her jeans open
